

# DIDSBURY PIONEER

VOL. XXX, No. 5

DIDSBURY, ALBERTA, THURSDAY, FEBRUARY 2, 1933

\$2.10 per Year. 5 cents a copy

## Annual Town Meeting.

There was the largest attendance in years at the annual meeting of the town held in the High School on Friday.

Mayor Chambers occupied the chair and spoke as to the splendid financial condition of the town as shown by the annual statement. He pointed out that the amount of arrears of taxes was considerably too high and urged the taxpayers who are in arrears to make every effort to at least make some reduction in their taxes.

The financial statement was read by the secretary and although there was very little criticism, several questions were asked.

The financial statement of the school district was read by Mr. M. B. Clements and showed the district as having a considerable balance on hand.

During the discussion it was pointed out that necessary repairs and painting had not been done during the year on account of the stringency of the times, but it was voiced at the meeting that these repairs should be done during the coming year.

Votes of thanks were accorded both the council and schoolboard for their services.

## Didsbury Ladies Beat Crossfield Curlers

The Didsbury lady curlers were highly elated Saturday when all of their four rinks got the best of their opponents in a friendly tournament on Crossfield ice.

Mrs. Evans beat Mrs. Amery 2-5. Miss Florence Reiber beat Mrs. Miller 12-9.

Mrs. Geiger beat Mrs. Pogue 11-2. Mrs. Ranton beat Mrs. Harrison 9-8.

The Women's Missionary Society of Zion Evangelical Church will observe their Annual Day of Prayer at the morning session on Sunday at 10:30. In the evening at 7:30 the subject of the pastor's sermon will be, "The Rainbow of Hope."

## Olds Loses 4-3 To Didsbury

The fast-stepping Olds sextette bowed to Didsbury, Saturday night, when the locals won a fast, clean game 4-3. After just 20 seconds' play Hardy took Woodlock's pass to beat Culley for the only score of the first canto. In the middle frame Hardy scored his second goal on an assist from Bob Gooder and gave Didsbury a 2-0 lead. Two brilliant goals by Johnnie Johnson, ex-local star, who played a fine game for Olds, evened accounts at the end of the second. Hood gave Olds the lead early in the final spasm on a pretty solo rush. Woodlock again balanced the sheet when he scored on Dedels' pass, and Dedels ended the scoring after Berscht had slipped the puck right across the goalmouth.

Olds: Culley; Haldene, Powell; Johnson, Hood, McGill, Knight, Scott, Hanson, Black, Hays. Didsbury: McCoy; Woodlock, Moyle; Gooder, Huget, Hardy, Evans, Berscht, Dedels. Referee: Clint Reiber.

## Geiger Stars For Didsbury

With George Geiger in the stellar role Didsbury trimmed Crossfield 4-2 Monday night in a Rosebud League fixture that was fast and clean all through. Geiger on a very pretty individual play scored early in the first period. The sweetest play of the evening resulted in Didsbury's second score when Huget passed to Geiger who gave Demers no chance to save. Didsbury took a 3-0 lead when Geiger scored on Hardy's assist. The veteran Bob Smart put Crossfield in the running when he beat McCoy on a shot from outside the baseline. Crossfield threatened when Stevens scored early in the final frame and were striving hard for an equalizer when Geiger again bulged the hemp with Woodlock getting the assist and though play speeded up with the visitors having five men forward McCoy was unbeatable and the game ended Didsbury 4, Crossfield 2.

## LOCAL & GENERAL

Let us remind you of the Saturday Night Dances, 25c every body. The Bellamy Orchestra.

Miss M. Sangster will entertain the Business Girls at bridge at the home of Mrs. D. McKee on Tuesday evening next.

Mr. Aylmer Liesemer will address a public meeting on "The Aims and Objects of the C. P. F." at Carstairs on Saturday, February 4th.

A community dance will be held at the Grand Centre school tomorrow (Friday) evening. Ladies please bring lunch.

The Young Peoples' Society of Knox United Church held a social meeting Tuesday night, which was much enjoyed. These meetings are going to be popular.

Mons. Chapter, I. O. D. E. will hold a guest tea at the home of Mrs. H. C. Liesemer tomorrow, Friday, Feb. 3rd from 3 to 6 p.m. 20 cents. Bring your friend.

Rosebud and Westerdale clashed for the first time this season Tuesday evening. Rosebud had it all over the aggregation from the west and held them scoreless until the last 5 minutes. The score was 7-1.

"It's Tough To Be Famous," at the Opera House tonight (Thursday) at 8:30. Stars Douglas Fairbanks Jr. and Mary Brian. See what it means to want moonlight and roses and get only limelight and poses! Step behind the headlines and share the secrets of a famous hero!

Critics of modern womanhood hold that this is an era of cosmetics and bobbed hair, short skirts and intellectual revolution. What do you think? See Dorothy Sebastian in her latest picture, "Ladies Must Play," a sophisticated comedy-drama at the Opera House next Monday and Thursday, Feb. 6th and 9th.

The February meeting of the W. C. T. U. will be held at the home of Mrs. Berscht on February 9th at 3 p.m. A program of interest is prepared, presenting "Five Glances of Frances Willard," also "Canada's Part in the World's Mission Fields At Home and Abroad." Members and friends are cordially invited.

A very pleasant surprise was enjoyed at the home of Otto Klein on Jan. 27th in honor of Mrs. Klein's birthday. After supper and when about ready to retire, thirty or more of their friends stepped in to wish her a happy birthday. Recovering for a moment to compose herself, she quickly went to rouse her husband who pretentiously had gone to sleep on the couch, but found him already shaking with laughter. The evening was spent in games, contests and conundrums. At the close of a very pleasant evening a delightful lunch was served.

MISS NORMA PIPER  
Lyric Soprano

Who, with the assistance of Mr. Richard Swaborn, violinist, and Mr. Lloyd Roberts, pianist, will give a recital sponsored by the Didsbury Masonic Lodge on Friday, February 24th in the Didsbury Opera House.

## NOTICE OF NOMINATION MEETING.

Town of Didsbury Municipal Election and Didsbury School District, No. 652 Trustee Election, 1933.

Public Notice is hereby given that a meeting of the Electors of the Town of Didsbury and Didsbury School District, No. 652, will be held in the Town Office on Monday the 6th day of February, 1933, from eleven o'clock in the forenoon until twelve o'clock noon, for the purpose of nominating candidates for the offices of Mayor, Councillors, and School Trustees for the next ensuing two years.

GIVEN under my hand at Didsbury this 30th day of January, A.D. 1933.

W. A. AUSTIN,  
Returning Officer.

## Nomination Day, Monday, Feb. 6th

The meeting for nomination of mayor, town councillors and school trustees, will be held Monday forenoon.

It is expected that more interest will be taken in the elections this year than has been the case for the past several years, and it is expected that a number of candidates will be nominated for the various offices.

The offices of mayor and four councillors will be open for election. Mayor Chambers and Councillors Ashland, Barrett and Pitt retire this term, and Councillor Fisher, who had another year in office, has tendered his resignation.

Three trustees will be required, the retiring officers being Messrs. J. V. Berscht, Dr. Clarke and J. E. Liesemer.

## Westcott W. I. Donates To Charity

The ladies of Westcott Women's Institute donated cheques of \$5.00 each to the Salvation Army and the Red Cross Society, at their meeting held at the home of Mrs. Shoullice on January 26th.

The meeting opened with the singing of "O Canada," and the roll-call was answered by "Naming a Famous Canadian and Why," also the payment of dues.

A demonstration of endymaking was given by Mrs. Robinson, and vocal duets were rendered by Mrs. Dumphrey and Mrs. McDougall.

A committee was appointed to make arrangements for an oratorical concert to be held at Jackson school February 17th.

A vote of thanks was accorded Mrs. Robinson for her demonstration and at the close of the meeting a most delightful lunch was served by the hostess.

The next meeting will be held at the home of Mrs. Jack Robertson on February 23rd.

## Britain Leads The Way.

Because of its importance as an essential factor in the economic and financial recovery of all nations, and because a reasonable, business-like settlement must be reached before that recovery becomes even possible, we offer no apology for again making the international war debts the subject of discussion in this column. Such discussion, if it is to be at all helpful, must, however, be conducted in a fair manner, arguments advanced must be based in justice and on reason, and nothing of a nature to provoke ill-feeling or prejudices indulged in. The whole object of such discussions should be to present facts, frankly outline and explain the actual position, and thereby seek to bring all nations closer together and into a more friendly understanding of each other's position, and the necessity of taking, not one-sided action, but in effecting readjustments which will prove beneficial to all.

First of all, let us again refer to the contention advanced by the Montagu newspaper previously quoted by us, which presented the viewpoint of many people in that country that it was passing strange that Great Britain, while finding it difficult, in fact more impossible, to repay its debt to the United States in gold, was still able to devote 160 millions of dollars annually to military purposes.

Without attempting to analyse such payments in order to establish what proportion of them is accounted for by pensions, hospitalization, and other care of living disabled soldiers and sailors, and other payments which have to do with what is past and not as preparation for the future, we would present certain facts in support of our former statement that Great Britain has reduced her military expenditures to a greater extent than any other country; that with a world-enriching Empire she is spending less, not only proportionately but actually, than the United States, much less than France, and that she is the foremost advocate of disarmament in the world today.

Great Britain does not maintain a large army, and never has done so. At the outbreak of the Great War it was so small that Germany looked at it with contempt. Such as it was, it was scattered all over the world, with the major strength in India, and only located at Gibraltar, Malta, Egypt, China, along lines of Empire communication. It was not an army of offense, but solely for defence; in a word, a necessary police force of the Empire. The British army is smaller today than before the war, and smaller than the army of the United States, almost insignificant compared with the standing armies of European countries.

Britain's chief expenditures have been on her navy, and that navy was likewise a defensive machine for a sea-surrounded country with Dominions, colonies and protectorates located in all parts of the globe. It was designed and created to protect the sea-borne commerce of the Empire in time of war, whether Britain was involved in such war or not, and to be a "world policeman" in time of peace, to succeed and protect British subjects and other people in all parts of the world where revolution or disaster might occur.

Bearing these facts in mind, and the further fact that the British Empire is not smaller because of the Great War, but larger, and its responsibilities toward backward peoples greater than ever before, let us ponder for a moment what Britain has done to lessen military, or war, expenditures and to promote disarmament throughout the world.

In the British House of Commons recently, the First Lord of the Admiralty declared that, so far from hindering disarmament, "Great Britain had given the most magnificent lead to the world." He quoted figures to support his assertion. In 1914 Britain had 60 battleships; by 1936, when the next conference on naval strength fails due, Britain will have only 15 battleships. Britain's cruiser strength in 1914 was 108; by 1936 it will be 50. Of destroyers Britain, in 1914, possessed 257; in 1936 the number will be 115. In submarines Britain in 1914 had 74; by 1936 she will have only 38.

Now let us compare total naval tonnage of Great Britain, United States, France and Japan as it was in 1914, and as it will be when the next naval conference meets in 1936. Here are the figures:

	1914	1936	Increase or Decrease
Great Britain	2,100,000	1,151,000	45% Decrease
United States	881,000	1,139,000	29% Increase
France	746,000	560,000	33% Decrease
Japan	522,000	729,000	37% Increase

Thus has Britain led the way towards disarmament. Its army, which is a threat to no nation but a domestic police force, is smaller than ever; its navy, upon which at any moment the very food supplies of the British people may depend, and upon which thousands of British subjects in odd corners of the world have to rely in time of trouble, has been reduced by almost one-half. Can Britain with safety go farther until other nations display a willingness to follow her example?

Even the figures given do not tell the whole story. Britain relies on cruisers more than any other type of ship to protect her far-flung colonies and protectorates. The life of a cruiser is estimated to be about 20 years. Since Britain's cruisers are already over that age, and by 1936 no less than 18 is out of the total of 56 will be out-of-date.

France, like Britain, shows a decrease in total tonnage, but in 1914 very many ships in the French navy were of practically no fighting value, while today the French fleet is very much up-to-date.

At the present time Britain has 36 cruisers in actual commission, of which 29 are abroad. In the past 18 months she has had 18 urgent calls for cruisers to be sent to various parts of the world, all cases of dire necessity, and the British Admiralty now finds the greatest difficulty in answering such demands. We again ask, should Britain go farther, scrap more ships, allow such demands for assistance to go unheeded, and remove from a still unsettled world that protection which, it has been the pride and glory of the British navy, it has always provided when the call came?

No, Britain is leading the way in disarmament, just as it is in relation to problems calling for attention. It is now up to those who professedly approve of her policy to follow that leadership and give a helping hand.

The Irish Free State has granted a 12½ per cent. bounty on cattle exported. Heavy trade, with some spread in the feet, are being done from the Arctic.

Helping The Poor  
Eight cents now pays for a medical consultation, treatment and a bottle of medicine in the poor districts in Liverpool, England, where three experienced doctors carry on the work of the cheap dispensary.

## Honored By France

## Woman Restored Mutilated Faces Of

## Polis After War

For the work she did after the war in aiding plastic surgeons in restoring the mutilated faces of French polis by creating life-lasting "portrait masks," Mrs. Anne Colman Ladd, Boston sculptor, has been awarded the Cross of the Chevalier of the Legion of Honor.

"The method I used for my portrait masks," said Mrs. Ladd, "was technically this: A mask of the mutilated face was made. Then, working from photographs or verbal descriptions, I would build up the missing or ruined features with their natural expression in the plaster cast. From this a gutta percha mask was hung in a copper bath for two days. The thin copper sheeting was then silvered and painted with a special enamel that would match the skin tone of the subject as nearly as possible. If the wounded man was blind, the mask would be equipped with false eyes, and with spectacles, eyelashes, eyebrows, and even a mouthpiece. The masks were light and durable, and they will last a lifetime."

"These men could walk the streets and be recognized by their friends and relatives. They could smoke and twirl their mustaches."

"I have many touching letters from men I have been able to help."

## Work Nearly Completed

## Mishaps Delayed Cleaning Up Channel To St. John Harbor

For two months men have been engaged in removing ledges on the eastern side of Partridge Island and in straightening, as a consequence, the main channel leading into Saint John harbor. More than half the work has been completed.

The history of the undertaking dates back to the spring of 1920, when the R.S. Duchess of Richmond ran aground on the island. It was before daybreak, thick fog prevailed, and the ship had not acquired sufficient steam to counterbalance a strong tide. At two o'clock the tug, the Dominion Parliament, 5500 tons, was voted for the channel development.

Work was delayed briefly by two mishaps. In October of last year the dredge "Leonfield" sank after an anchor punctured the hull. The crew scrambled to safety aboard a tug. Later, a rock breaker purchased at Halifax sank off Nova Scotia while being towed to Saint John. Another rock breaker is engaged in the work as well as two dredges, including the "Leonfield," which was salvaged and repaired.

The ledges are being reduced to a maximum of 30 feet below the surface at low water.

## Eyes and Nervous Strain

## Trying To See In Bad Light Causes Waste Of Energy

Your whole body wastes energy when your eyes are strained by trying to see in bad light, reported Dr. M. Luckless and Frank Moss at a session of the American Association for the advancement of science. Nervous muscular tension of a man reading a book increases or decreases in direct proportion to the amount of light falling on the book.

A possible aid to study of cancer, discovery of the organism that apparently plays a leading part in producing cancer in plants was described by Dr. Michael Levine, of Montefiore Hospital, New York.

The organism he has isolated seems to be what causes cells of a plant to multiply rapidly and produce a tumor. Human cancer results from a similar abnormally fast growth of cells, but the organism that causes it is not known.

Study of how the organism works, said Dr. Levine, may throw some light on the cancer problem in general.

## Idea Did Not Work

Stewards on the "Empress of Britain" had arranged to get George Bernard Shaw's signature to sell to autograph seekers. When one purchases drinks in the Cathay lounge one signs a bill. The stewards intended to pay for the drinks themselves and keep the bill until they discovered Shaw was a testotaker.

M. W. WILSON, President

AUDITOR'S CERTIFICATE

THE ROYAL BANK OF CANADA: The undersigned has examined the Statement of Liabilities and Assets at 30th November, 1932, with the books and accounts of The Royal Bank of Canada at Head Office and with the certified copies of the books. We have verified the cash and securities at Head Office at the close of the Bank's financial year, and during the year we counted the cash and examined the securities of the branches and branches. We have also examined the books and accounts of the Bank.

We have obtained all the information and explanations that we have required, and in our opinion the Statement of Liabilities and Assets is a true and correct statement of the financial position of the Bank at the close of the financial year.

A. B. BROWN, C.A., Auditor

## Treeless Prairies Will Soon Be A Thing Of The Past As Result Of Forestry Campaign

Extended stretches of treeless prairie are now the exception in Western Canada. The treeless prairie was common. Since the Canadian Government instituted a tree-planting division in 1901 under the administration of the Department of Interior (recently transferred the work to the Department of Agriculture), a total of 117,225,530 trees have been distributed free to farmers in the Prairie Provinces. Of this total 115,150,070 were deciduous or broad-leaved trees and 2,035,860 were coniferous or evergreen.

Sufficient seedling trees to establish shelter belts have been sent out from the Canadian Government Forestry Stations at Indian Head and Sutherland, Saskatchewan, to as many as 6,000 farmers every year for the past thirty years, or an average of about 1,600,000 trees per year. In addition to the free distribution, millions of trees have been sold in the Prairie Provinces at Manitoba, Saskatchewan and Alberta by owners of prairie farm homes, which formerly stood out on a somewhat bare and unrelieved landscape, are now sheltered by girdles of stout trees, which not only serve as windbreaks, but help to conserve the moisture and make a decided contribution to the attractiveness of the surroundings. The trees that are the most popular among farmers in Western Canada are Caragana or Serbian pea, Manitoba maple, ash, poplar and willow. The "treeless prairie" passed into the limbo with many other things about the close of the nineteenth century.

### Dominion Seed Branch

#### Effective Work Carried On For Benefit Of The Agriculturist

The Dominion Seed Branch encourages the production of superior seeds for domestic requirements and export; performs field inspection of seed crops for registration, and for certification as to purity of variety and quality; grades all field seeds offered for sale on the basis of control samples or of official samples drawn by inspectors; maintains laboratories for the analysis of seeds, feeding stuffs, fertilizers, binder twine, insecticides and fungicides; supplies markets information and develops the marketing of these products, and of hay and straw which are graded on request administer the Seeds Act, Feeding Stuff Act, Fertilizers Act, Inspection and Sale Act, and Agricultural Pests Control Act. The branch organization includes four main divisions, and for the enforcement of the Acts Canada is divided into seven inspection districts each supported by a service laboratory.

### Big Sale Of Canadian Tobacco

#### Ontario Growers Obtain Handsome Returns On Crop Last Season

One of the largest tobacco manufacturing companies in England has recently bought 800,000 pounds of Ontario-grown tobacco, according to a statement issued by the Ontario Government Minister of Agriculture. This transaction is reported to complete the disposal of the 21,000,000-pound crop of blue-veined burley tobacco produced in Norfolk County, Ontario, which has returned about \$1,000,000 to the growers.

In recent years the sale of Canadian tobacco in the British Isles has been increasing due to the improvement in the quality and the preferential tariff accorded by British on tobacco grown in Canada and other parts of the British Empire.

### Means What It Says

"Until death do us part" means something when Prince Edward and his bride stand before the altar. There was not one divorce action in the province during 1932, and only two divorces have been recorded since confederation.

Coal production in Germany is increasing.

W. N. U. 1936

### Grow Oats In China

#### Canadian Oats Introduced By Missionary May Help To Support Rice

Canadian oats have been acclimatized to conditions in western China and are being distributed in quantity from West China Union University, Chengtu, a missionary institution, to government experimental farms and to the hill tribes in Szechwan province for 1933 sowing.

The original supply was brought across from Canada eight years ago by Rev. Frank Dickinson, B.A., M.Sc., a Canadian missionary, and tended by him in plot and field every season since.

In the Chengtu plain the staple diet is rice and in the hill country the tribes rely mainly on Indian corn. Under this condition it is considered that the introduction of oats will add ultimately an important article to the diet of large numbers of people. The experiment has not yet reached the commercial stage, but will be watched with interest.

By Ruth Rogers

### PEACH FUEL DIES FOR BROTHER AND FOR SISTER

Easily made. Here you have two patterns, an undershirt and pants for brother. The pants button on to the waist. And an undershirt for sister with bloomers that also button on to the waist.

They require such a small amount of material to fashion them. And simple well I guess! You could almost run them up before breakfast.

Several sets could be made in a single day of excellent quality fabric that will tub and tub. When you shop look on the remnant counters, the saving will be enormous.

Bateau, cross-barred dress, linen, pongee and novelty ribbed cotton fabric are sturdy.

Style No. 818 is designed for sizes 2, 4, 6 and 8 years.

Size 4 requires 1 1/2 yards 35-inch for either Brother or Sister suit.

Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap coin carefully.

### Turnips Are Popular

#### Canadian Product Is Favored In Markets Of United States

"Imported" turnips are becoming popular in U.S. menus, according to statistics which have been issued by the Canadian National Railway concerning Canadian turnips.

"By such humble instruments as the turnip, Canada's foreign export trade is being advanced," states the agricultural department of the railway. "Because of its tender quality, the Canadian turnip has been finding sudden favor in markets in the United States as well-spread as from New England to Florida and as far west as Texas. During the past year the Canadian National Railway shipped no less than 2,000 carloads or about 1,200,000 bushels of turnips to points in the United States. Refrigerator cars are used exclusively in handling the traffic. These turnips all come from farms in Eastern Ontario and Prince Edward Island, the entire crop of the latter province being sold to the New England and New York markets."

### Expect New Record

#### More Buyers Looked For At British Industries Fair

Months before the opening date the number of overseas buyers who have signed their intention to visit the British Industries Fair at Olympia and the White City, London, and Castle Bromwich, Birmingham, is more than 30 per cent. larger than the corresponding number last year, when the attendance of buyers set up a record.

The department sends out under special invitations to some 4,000 buyers in about 190 different overseas countries and territories. The fair, which will be held from February 20 to March 3, will be larger and more varied than any of its predecessors. The area booked by exhibitors is 21 per cent. larger.

### Urges Music Study

Study of music in the schools, not with a view to a professional singing career but as a valuable adjunct to success in salesmanship or in any other lines of business endeavour, was recommended in Toronto by Edward Johnson, native of Guelph, Ont., and distinguished leader of the New York Metropolitan Opera Company.

More than 250,000 varieties of flowering plants are found in the British Isles.

## Much Annoyance Is Caused By Heavy Exchange Rates Against Canadian Dollar In U.S.

### The Wheat Kings

#### Canada Has Won Highest Award In Wheat Eighteen Times

Since the contest for the world's wheat championship was inaugurated in 1911, Canada has won the highest award eighteen times. At the last International Grain and Hay Show held at Chicago from November 26 to December 3, 1932, inclusive, 86 of the 85 awards for hard red spring wheat went to Canadian competitors, including the championship won by Herman Trolle of Wembley, Peace River, Alberta. The winners of the championship in the past twenty-two years are as follows:—

- 1911 Senger Wheeler, Saskatchewan.
- 1912 Henry Holmes, Alberta.
- 1913 Paul Gerlach, Saskatchewan.
- 1914 Senger Wheeler, Saskatchewan.
- 1915 Senger Wheeler, Saskatchewan.
- 1916 Senger Wheeler, Saskatchewan.
- 1917 Sam Lacombe, Manitoba.
- 1918 Senger Wheeler, Saskatchewan.
- 1919 J. C. Mitchell, Saskatchewan.
- 1920 J. C. Mitchell, Saskatchewan.
- 1921 G. W. Knott, Montana, U.S.A.
- 1922 R. O. Wyler, Saskatchewan.
- 1923 Major H. G. L. Strang, Alberta.
- 1924 J. C. Mitchell, Saskatchewan.
- 1925 J. P. Yates, Montana, U.S.A.
- 1926 Herman Trolle, Alberta.
- 1927 C. Edson Smith, Montana, U.S.A.
- 1928 C. Edson Smith, Montana, U.S.A.
- 1929 Jos. H. B. Smith, Alberta.
- 1930 Herman Trolle, Alberta.
- 1931 Herman Trolle, Alberta.
- 1932 Herman Trolle, Alberta.

France has been seeking ways for government support of the wheat market.

A camera for aeroplane panorama photography registers 270 square miles.

"Canadians are both annoyed and mystified by the treatment their dollars receive in the United States. They know that conditions across the border are more than in the Dominion. Also, they are aware that while banks in the Republic have been collapsing by the hundreds, there is not even a whisper against these institutions in their own country. Of course, the people of Canada realize that this condition is brought about by mysterious agencies such as exchanges and the balance of trade, but these explanations do not satisfy. This question is dealt with sympathetically by the Saginaw (Michigan) News in the following editorial comment:

"Canada does not understand but does resent the continuing fall of the Canadian dollar on the New York money market. Apparently it is a sympathetic reaction to the drop in the British pound sterling, accentuated by the war-debt mess. As a matter of fact, the Canadian financial system has nothing to do with the British system of which it is entirely independent. And Canada has no foreign war debt. It bore the entire and heavy cost of participation in the war through internal loans and internal taxation, and owes no other country anything on account of the war."

A Canadian \$52,000,000 internal loan was oversubscribed; no Canadian obligation has been defaulted in the United States; Canada has maintained its export trade at a higher percentage than this country; it has had no bank failures all through the depression; in disorders and default Government bonds; no element of insecurity for private investment; but it finds its dollar steadily devalued. In the circumstances it is not to be wondered at that the Canadians are puzzled over the problem.

It is an issue which should interest this country because one effect of the decline in the value of the Canadian dollar is to discourage Canadian buying in the United States, and admits that "Canada hitherto has been a very good customer."

It will be noted that the Michigan paper dwells upon the discouragement of Canada buying in the United States, and admits that "Canada hitherto has been a very good customer." After all, apart from being a cause of annoyance, this discount on the Canadian dollar does not greatly affect the individual Canadian, if he stays at home. True, it has checked his buying of United States goods, and stopped many little excursions over the border, but this country is not the loser by that condition. — Toronto Globe.

### Russia Issues New Order

#### Housewives Under 56 Deprived Of Bread and Sugar

On the eve of the end of the five-year plan Russian housewives under 56 learned that beginning with the first of this year they would be deprived of bread and sugar of which they now receive small rations.

This action, reflecting the food shortage in Russia, is an extension of the government's "no work—no food" policy and apparently is designed to impact more women into industrial employment with the view to ultimate abolition of the home as the unit of family life.

At the height of the campaign which has been waged for several years to draw more women into industry a census of Moscow showed there were approximately 1,000,000 housewives in the city at the end of 1931. At that time it was estimated the number would be reduced by half at the end of this year. Eighteen per cent. of the 1,000,000 were over 60.

### Stream Flow In Middle West

In southern Alberta, following average to above average run-off in May and June, stream flow has been continuously below normal, averaging only from 60 to 70 per cent. of the average monthly flows from July to October, inclusive, according to records of the Dominion Water Power and Irrigation Bureau of the Department of the Interior. In southern Saskatchewan, the run-off has been even less and the summer flow, from May to October, inclusive, has had a monthly average only 25 to 50 per cent. of normal.

### AMY'S WONDERFUL WELCOME AT CROYDON

It must be a hard job for press photographers to keep track of Amy Johnson, considered to be one of the finest aviators in the British Empire. One day she is in Cape Town, then in Paris, and again in London. Here we see her receiving a wonderful welcome at Croydon, London, at the completion of the round trip to Cape Town and back in record time. With Mrs. Johnson is her husband, Captain M. D. Johnson, who also holds several records for flying. In the background between the happy couple is Sir Malcolm Campbell, holder of the world's land record for automobiles.

## Guarantee Does Not Affect Taxes.

The chairman of the Alberta Wheat Pool in a recent public statement pointed out that taxation had not been increased one cent in this province by the provincial government's guarantee of the Pool's 1929 overpayment.

What actually happened was that the government issued its bonds to the lending banks to the amount of the overpayment, together with the incidental charges, the total being \$5,500,000, and in turn took a blanket mortgage on all the Alberta Wheat Pool's assets. So far as is known no actual payment of any kind in cash by the province was involved. What was done was to pledge the credit of the province to the amount stated.

The first year's interest due by the Pool on this account to the province in August last, namely \$222,891, was paid promptly. The pool report covering operations for the first full year after the guarantee was made showed that the operating earnings before depreciation were over five times the interest requirements to the government. It is also to be noted that heavy reserves are being accumulated by the Alberta Wheat Pool, ostensibly to make an ample provision for the payment of their bonds when they come due. The increasing of the Pool's liquid assets to a total of well over three and one quarter million dollars, as of July 15th last, shows that those in charge of the organization are steadily building up a big cash reserve.

Judging by its recent showing, the Pool has an excellent chance to re-establish itself and pay off its indebtedness to the provincial government in full. The progress maintained since July 1931 is a good indication of careful management in a period so difficult for business of all kinds.

## How Weeds Affect The Yield Of Wheat

Competition for water, between wheat and weeds growing together, inevitably results in a marked depression in the yields of grain. The results of experiments on soil-moisture conducted at the Dominion Experimental Station, Swift Current, Sask., give some very significant information on this subject.

Wheat seeded on clean summer-fallow in 1932 used a total of 11.7 inches of water. Where wild oats were permitted to grow with wheat, the two crops used a total of 11.9 inches of water. Wheat and stinkweed used 11.0 inches, and wheat and Russian thistle 12.0 inches. These amounts represent available water in the soil, together with the rainfall, no addition of water being made.

Where only a definite amount of water is available and weeds are present in the grain, part of this water is utilized by the weeds. In the above experiments, for each pound of grain and straw combined from clean summer-fallow, 574 pounds of water were consumed. To produce each pound of combined wheat and wild oats, 595 pounds of water were used; for wheat and stinkweed, 608 pounds, and wheat and Russian thistle 499 pounds. The variations in these figures are caused

by differences in the use of water by the weeds. Russian thistle, for example produces more than twice as much material as the other weeds, for each pound of water consumed. While a similarity exists in the amount of water used, and all available water is utilized, a wide difference appears in the yields of grain and the proportion of grain to total crop. Wheat on clean summer-fallow yielded at the rate of 26.5 bushels per acre and the grain formed 34.5 per cent of the total crop. Where wild oats were present the wheat yield was 14.8 bushels and the proportion of wheat 19.6 per cent. In the presence of stinkweed the grain yielded 14.2 bushels and the proportion of grain 23.9 per cent, while with Russian thistle the grain yield was 20.6 bushels and it formed 22.7 per cent of the total crop.

The foregoing figures will vary, of course, according to the degree of weed-infestation and the nature of the season. In the experiments the weed-infestation was not materially worse than that occasionally seen throughout the country. Complete eradication of weeds is an almost impossible task, but in the light of the above evidence every reasonable effort in suppressing weed-growth will bring tangible rewards.

S. Barnes,

## Editorial Comment Supports Beatty Consolidation Plan

Editorial opinion throughout Canada has been very largely in favor of the proposals advanced by E. W. Beatty, K.C., Chairman and President, Canadian Pacific Railway, looking toward the consolidation of the two railway systems under one management, as the only practical means of relieving the intolerable burden upon the Canadian taxpayers. Mr. Beatty made his proposal in a recent speech before the Toronto Canadian Club, and the following paragraphs from leading editorials on the subject, clearly indicate the nation-wide scope of supporting public opinion. A total of 37 daily newspapers commented up to January 29th, of which 22 were in favor of consolidation.

"This is far and away the most candid, constructive, and striking contribution to the discussion of our transportation problem that has yet been made."—Montreal Gazette.

"Dramatic action appears to be essential if the tremendous burden is to be lifted from the shoulders of our people."—Halifax Herald.

"It is essential with our small population that the railway relieve and service should not outrun the needs of the country."—Halifax Chronicle.

"Mr. Beatty's call for action is timely."—Saint John Telegraph-Journal.

"There is much that appeals in the suggestion of Mr. E. W. Beatty, K.C."—Hamilton Herald.

"We agree with the President of the Canadian Pacific Railway that the country must get down to business."—Mail & Empire, Toronto.

"Mr. Beatty has offered a solution of the railway problem, definite steps to this end should not be delayed."—Border Cities Star, Windsor.

"The most constructive of all suggestions have emanated from Mr. Beatty."—Victoria Colonist.

"He urges the drastic remedies he deems necessary, regardless of every consideration, except the salvation of the two great railway systems and of the State."—Vancouver News.

"Mr. Beatty's carefully considered proposals are completely correct, as to whether the unexplored profits of a monopoly are great enough to require that the Canadian public shall go on paying billions annually for the doubtful privilege of having separate systems."—Windsor Sentinel-Review.

"It would be a miracle were confounded if the Beatty recommendations were to be adopted by Parliament."—Stechmole Daily Record.

"Mr. Beatty's view is absolutely in accordance with the public movement as it is coming. The country must get down to business."—Ottawa Citizen.

"What the country needs is a consolidated solution of a tough problem. We can't afford to go on as we are doing. The one fact stands out, that the Beatty Consolidation report was based on policy, while Mr. Beatty's arguments rest on the plain business requirements of the situation."—Saint John Star.

"Mr. Beatty has courageously made clear the issue between half-baked quasi public ownership, and full private ownership and management, operating under the control of Parliament."—Moose Jaw Times.

"With no solution reached, Mr. Beatty's address should be read and discussed. If there is to be consolidation there must either be a publicly owned system or a privately owned system. That is the issue. The Staff Commission did not settle it."—Lethbridge Herald.

"The more one studies the cold figures in the case and acquires a better understanding of the disastrous results financially in the operation of the C.P.R., the more inevitably becomes the conclusion that public ownership has proven disastrous."—Brandon Examiner.

"There appears to be no course open but a merger of the two great systems."—Gait Reporter.

"Mr. Beatty has shown great courage in his proposals."—The Financial Post.

"This merger seems to be the best of the only means of getting out of the dilemma into which we are thrust."—La Presse, Montreal.

"As put by the President of the Canadian Pacific Railway, the choice before Canada seems to be whether this country would best be served by two insolvent railroads, or by one solvent road."—Toronto Telegram.

"It is significant that Mr. Beatty is interested primarily in bringing about amalgamation, secondly in the form this amalgamation should take."—Calgary Albertan.

"Where the two systems are lumped into private or public ownership, and the budgets balanced, then that unified system can be put to work for Canada."—Vancouver Sun.

"Mr. W. Beatty, President of the C.P.R., claims the way out of the mess is the amalgamation of our two lines under one management, and the Labor Leader is inclined to agree with him."—Labor Leader, Toronto.

The newspapers in opposition to Mr. Beatty's proposals include: The Vancouver Province, Edmonton Bulletin, Toronto Globe, Toronto Star, Le Devoir, Montreal, Le Soleil, Quebec City, Montreal Daily Star, Victoria Times, Manila Free Press, Winnipeg Tribune, and the Edmonton Journal.

**Distribute Forage Crop Seed.**

In view of the success which last year attended the policy of distributing forage crop seed among selected farmers in the province for the encouragement of the production of forage crops, a continuance of this policy for 1933 has been decided on, according to the provincial field crops branch. The policy is carried out jointly by the provincial field crops branch, Dominion seed branch and the University of Alberta. All farmers wishing to participate in the distribution of this seed are advised that applications are now being received by the provincial department of agriculture.

## HER FAT WAS A BURDEN

### Now She Is Quite Slender

There is another case where the trim and figure of youth has duplicated the course, fat, out of midlife-age. It is a housekeeper writing. She says:— "I cannot say my weight I was but I was very fat. A burden to myself. I have taken three bottles of Kruschen Salts and now I am quite slender. I am 56 turned and people take me for 40. I am more than proud of myself. You can take it from me that every word of this is true. I took a teaspoon in hot water every morning till I used three bottles. Now I only take half a teaspoonful each morning. I cannot recommend the Kruschen Salts enough for they are worth their weight in gold." (Mrs. A. H.)

For generations, wealthy, overweight people have been visiting those Europe's spas whose waters are famous for their reducing effect. Now the formula of Kruschen represents the ingredient salts of the mineral waters from those fat-famed spas. These Salts combat the cause of fat by assisting the internal organs to perform their functions properly. It throws off and cleanses those waste products and poisons which, if allowed to accumulate, will be converted by the body's chemistry into fatty tissue.

## WORLD HAPPENINGS BRIEFLY TOLD

The Free State Department of Education estimates it will take 20 years to make the Free State bilingual to the same extent as Canada.

A Royal Canadian Mounted Police training station is to be established in Halifax. About 25 men a month will be graduated at Wellington barracks.

The hottest day in two summers was recorded at Denver, Ariz., when the temperature reached 104.5 degrees Fahrenheit on December 31. One case of sunstroke occurred.

The ending of Soviet Russia's first five-year plan and the beginning of the second plan has been acclaimed at Moscow, Russia, by the Soviet press.

The Ontario Government has placed a herd of elk on a 285-acre reserve near Petawawa, with the intention of ultimately stocking the forests with them.

Dr. W. W. Yen, head of the Chinese delegation to the League of Nations during the past year, was appointed ambassador to Russia by the Nationalist government.

Another of the problems that bother blind folk has been solved. The first cheque ever written in "Braille" has been cashed by the Bank of Manhattan Company at New York.

A collection of portraits of members of all the royal families of Europe is to be left to the British Museum. It has been compiled by Mrs. Thomas Brooksbank, now more than 80 years old.

A bronze bust of Bliss Carman, the poet whose ashes lie in Forest Hill cemetery in Fredericton, has arrived from British Columbia and will be placed in the library of the University of New Brunswick.

### Unusual Law Suits

#### Judge In Scotland Puzzled Over Case About Bess

Because a statue of her exhibited on the hand of Henry Gow of Dunfermline, Scotland, Peter Cope has been sued for £500. The first time he asked Cope for the value of the statue. At the end of the hearing, when he demanded the price of Henry Gow which he said he would have had if Gow had sent the statue home. Gow claims that in his first season in a new home he did not produce honey so that he really is not the sort of a fisherman that the statue depicts. He pointed the case to think it over.

W. N. U. 1936

### Tax Refunds

#### U.S. Government Refunds Huge Amounts On Income Tax

That very pleasant feeling you get when you find you have been overcharged and get some of your money back has come to thousands of individuals and business houses.

The United States government refunded \$80,558,364 last year, all because taxpayers, through some error, paid too much money in that or in previous years.

Several refunds amounted to more than \$100,000. The United Fruit Company of Boston got \$2,550,000, the largest. The sum of \$2,180,000 was returned to the Lehigh and Wilkes-Barre Coal Company of Pennsylvania.

Douglas Fairbanks, movie star, had \$2,188 returned, and Roman Novaro got back \$7,604.

### Recipes For This Week

(By Betty Barclay)

#### LEMON MISCELLANY

- 4 lemons.
- 2 apples.
- 1 pound currants.
- 1 cup raisins.
- 1 cup chopped nuts.
- 1 cup melted butter.
- 2 cups sugar.
- 1 teaspoon salt.
- 1 teaspoon ground cinnamon.
- 1 teaspoon ground nutmeg.
- 1 teaspoon ground cloves.
- 1 teaspoon ground ginger.
- 1 teaspoon ground allspice.

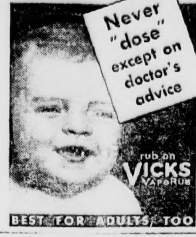

Squeeze juice from lemons and cook until salt put through meat chopper and then rub through a sieve. Add chopped apples and remaining ingredients, mix well and store in jars. Use as a filling for turnovers and pies.

#### SHREDDED WHEAT CREOLE

- 3 cups shredded wheat.
- 6 cups hot meat stock.
- 2 tablespoons bacon fat.
- 2 tablespoons minced onion.
- 2 eggs.
- Salt and pepper.
- 2 tablespoons tomato catsup.
- 2 tablespoons minced green pepper.

Crumble shredded wheat biscuit and cook until thick in boiling meat stock. Mix with bacon fat, onion, pepper, tomato egg yolk, catsup, and catsup. Fold in stiffly beaten egg whites. Turn into a buttered baking dish and bake (30 minutes) in a moderate oven (375 degrees Fahrenheit). Serve hot with grilled potatoes, 6 portions.

## BABY'S COLDS

Club Work Effective

### Points Which Should Receive Special Attention In Connection With Boys' and Girls' Save Clubs

Five points which receive special attention in connection with Boys' and Girls' Save Clubs was in the carrying out of which the federal and provincial Departments of Agriculture cooperate are detailed as follows:

1. The location and distribution to club members of young pigs of good bacon type and breeding. Of these, the best females are kept over for breeding purposes.
2. The giving of practical instruction to club members at their homes or through lectures at club meetings.
3. The distribution of printed or mimeographed information regarding the breeding, feeding, management, housing and marketing of swine.
4. The arrangement and conduct of judging and other forms of demonstrations.
5. The securing of good bacon type hogs for club districts.

### Measure Nature's "Jitters"

#### Scientists Learn How Water Makes Steam, Or Cool Heat

Measuring old Mother Nature's "jitters" a billion times worse than the worst storm fright, is science's latest way of learning how water makes steam, or cool makes heat.

It's done by measuring the energy in a single "jitter" or vibration of a molecule, which was described before the American Association for the Advancement of Science. If the jitter gets strong enough, the molecule's atoms will fly apart and combine again in a different formation, which is what happens when fuel burns or liquid turns into a gas.

## + Do You Know? +

Wolf-Mountain Monument, Quebec

THAT what is believed to be the only monument in the world erected to the memory of the commanders of opposing armies is the Wolf-Mountain Monument to General Wolfe, the victor, and General Montcalm, the vanquished, commanders respectively of the British and French armies in the decisive battle of the Plains of Abraham? The inscription on the monument reads: "Their valor gave them the same death, history the same fame and posterity the same monument." It is located in Quebec City.

## Strong Annual Statement by Royal Bank of Canada

Total Assets Stand at \$765,512,920.—Of This Amount Liquid Assets are \$355,929,912, Equal to 52.86% of Liabilities to the Public.—Included Therein are Cash Holdings of \$164,630,724, Being Over 24% of Public Liabilities.—Savings Deposits Well Maintained.

The annual statement just issued to shareholders of The Royal Bank of Canada supplies further striking evidence of the satisfactory manner in which leading Canadian financial institutions have passed through the unsettled conditions of the past year. Every part of the statement reflects the strength of the bank's position. Curtailed industrial and trading activity is reflected in lower commercial loans, and an increase in liquid assets. The latter show a marked increase over the previous year, and are now equal to 52.86% of its liabilities to the public. Included in them are cash holdings which alone aggregate over 24% of public liabilities. Savings deposits have been well maintained, particularly in favor of the large Government plans put out during the year. Earnings, due to lessened business activity throughout the country, show a slight recession, but were amply sufficient to cover dividends and the usual appropriations.

### Deposits at Satisfactory Level.

Deposits have been well maintained. Total deposits at \$619,094,143 show a reduction for the year of less than 7%, from \$664,795,718. Savings deposits make a very gratifying showing, and at \$468,391,159 are down less than \$8,000,000. In view of the large Government loans floated during the year, the total would indicate a tendency among depositors to keep ample cash balances and to add steadily to their savings. Non-interest deposits, which in the main are the working balances of business and farming customers, reflect the curtailment of business activity and lower prices, ebbing down to \$128,983,165 from \$170,913,903.

Shareholders will be interested in seeing that the reduction in loan accounts has more than offset the reduction in commercial deposits. At the same time the strong liquid position means that just as soon as trade recovers the bank is in a position to take care of the increased requirements of its customers.

Earnings have held up well, especially in view of the lessened business activity and the lower interest rates at reserve centers. Profits for the year were \$1,849,349, compared with \$1,848,327. They fully covered dividend requirements of \$3,850,000, contribution to Officers' Pension Fund of \$200,000, appropriation for bank promises \$200,000 and reserve for Dominion Government taxes \$600,000.

For a number of years the bank has carried an unusually large amount in undivided profits. This year the Directors have authorized a transfer of \$2,000,000 of this amount to investment depreciation reserve. This will be regarded as a conservative move, strengthening as it does the inner reserves of the bank to this extent and leaving \$1,166,884 to be carried forward to credit of Profit and Loss Account.

### Growing Food Conscious

#### Calories and Vitamins Now Enter Into Calculation of the Housewife

During the past few years this nation has been growing more and more food conscious. Women with market baskets on their arms, who never thought of such things as calories or vitamins, are now using care to see that they require foods that will enable them to serve balanced meals.

Vitamin "C" is something that causes grave concern particularly among women who have growing children and who realize that this new-found constituent is very essential.

Really, there is no particular need to worry about the lack of this vitamin, provided children like the fruits or vegetables in which it is found.

Orange slices cut in half, alternated with wedge-shaped apple pieces and served on shredded lettuce with any desired dressing makes a simple and economical salad combination that will provide vitamin "C" in unexcelled but delicious form. The same orange slices alternated with banana fingers served on a bed of watercress, or served sandwich fashion with a slice of Bermuda onion between, will also supply this vitamin. In fact, any orange fruit cup or salad is rich in vitamin "C."

### Patronized By Royalty

#### Woman Printer In London Held a Royal Warrant

Believed to be the only woman printer in the country to hold a Royal Warrant, Miss Marion Clarke, who combined printing with a toy and model-shop in Bath Road, Cowes, has died, aged 61. Miss Clarke, when a girl, was apprenticed to a local printer and afterward began business in her own account, setting up type and having a small printing press in the corner of her shop with which she did private printing for Queen Victoria when the court was at Osborne. A Royal Warrant as printer to Her Majesty at Cowes was given in 1909. London Daily Telegraph.

More than 1,110,000,000 national savings certificates have been sold in Britain.

### A Remarkable Achievement

#### Great Improvement Is Shown In Production of Pigs

A statement recently issued by the Sheep and Swine Division of the Dominion Department of Agriculture with respect to Canada's bacon hog industry observes:

"When the complete hog grading statistics for the year 1932 are added up, it will be found that from our total hog marketings of the year over 2,500,000 market hogs sold for slaughter under the Hog Grading Regulations throughout the Dominion will have graded as either select bacon or bacon. The above figures show a remarkable achievement for the hog raisers of the Dominion. It means that Canada, in a period of a little over ten years, has revamped her swine industry, creating as the backbone of the industry an ample supply of breeding stock of select bacon type with feeding and productive qualities which place our best hog raisers in the front rank of top quality and economic production."

### Business For Coast Province

#### B.C. Likely To Increase Apple and Lumber Exports To Britain

Important benefits from the new trade agreement between Canada and Germany, Provincial plants should obtain a share of the \$1,000,000 increased market for wood pulp with Germany and the B.C. apple market should be considerably enlarged.

British Columbia may increase her lumber exports to the United Kingdom during the coming year to 152,000,000 feet. This compares with 87,000,000 feet shipped during the past year, a gain of more than 70 per cent, or triple that shipped in 1931, when 30,000,000 feet created a record.

### Score For Doctor Koo

Yusuke Matsuda told the League of Nations that Japan regarded a boycott as worse than a military attack, to which Dr. Wellington Koo replied that if that were true, China would much prefer that Japan boycott her goods than invade her country with arms. And, as we see it, the doc won that one.

CHAPTER IV.—Continued.

She checked the plea. She could not bring herself to put Alan in so fearful a dilemma. Looking up, she met his gaze squarely again. "No, I can't ask that of you, I'd never ask that."

He chose his words very carefully. "The question with me, Joyce, is this: How deadly is your father involved? I can't think he'd go the whole length with these bandits. I can't think he'd countenance murder or even so brazen a robbery as these men staged. Perhaps they deluded him about their intentions. If they're caught, they're going to lie and throw as much of the blame on him as they can. But if I can have the truth as a working basis, I can nail their lies. We can't hope to save him from a penalty, but we maybe can save him from the worst."

Joyce blanched at the last word, at the spectre it aroused. Her father stood charged with murder. In her heart the law suddenly became a tangible and fearsome thing.

Alan went on: "You stand a better chance of getting the truth from him than I do, Joyce. He'd suspect me if I tried to talk to him. But with you he'd be more frank and open. When he comes in, won't you try to find out what you can?"

"You mean I'm to stand a better chance what questions that seem important?"

"That's exactly it, Joyce. Exactly what I meant. If you'll do for me, if you'll help me that much . . . Joyce, don't you see what I told you? Don't you see it's because I'm going to stick with you? I won't see your dad railroaded. I'll help him to the limit I can—because he's your father."

He was facing her in the ghostly morning light. Again he was conscious that his four months of absence, breaking the friendship between them, had invested her with an aura of strangeness to him; and that all during this brief futile visit he had become aware of her in a quickened sense. How brave and courageously a girl! And in spite of her hard life here, in spite of her efforts to be a good bush-lager, how winsome and friendly had adorable she was!

**TIRED AND IRRITABLE?**  
Take Lydia E. Pinkham's Vegetable Compound  
It steadies the nerves and helps to build you up. You will eat better . . . sleep better . . . look better. Life will seem worth living again. Remember that 98 out of 100 women say, "It helps me!" Let it help you too. Liquid or tablet form, as you prefer.

W. N. U. 1078

Unwilling to detain him, Joyce offered her hand, wishing him success today, hiding her fears for him when he should come up with these men. Alan bent nearer to her, he bent down a little to kiss her, as more than once he had done in the years past. It was an impulsive act; he was swept by admiration of her bravery, of her girlish prettiness. And it was a humble act of contrition, too, and self-reproach; for he had said to himself that if he had kept up his visits here, instead of leaving Joyce all alone to the battle, he might have halted Dave MacMillan's plunge into crime.

She went with him down to the wharf and stood watching the patrol embark. At the first bend above, he turned to look back. Vaguely through the mist he saw Joyce still standing on the wharf in the gray chill of earliest morning. He waved to her and caught the tiny white of her kerchief answering.

When the mist had hidden her from him, he turned his eyes ahead. Somewhere on the spruce-barked Alouka were those six bandit strangers, rifle-armed and desperate and certain to give battle. Against them he was pitting his life and the lives of his men today.

\*\*\*\*\*

Fifty miles above the MacMillan trading store, Alan ordered Pedneault to sweep in toward the north bank and stop.

He believed those bandits could not be very far ahead now. Across this silent wilderness the roar of the launch's engine carried for five or six miles. Warned of pursuit, those criminals might lift their canoes back into the timber and let the police go harmlessly past. Likelier still, they might lay an ambush where the river was narrow, and open on the launch with repeating rifles at a murderous point-blank range. But if he located them on upstream, he could slip upon them quietly in the paddle craft and lay a deadly ambush himself.

Taking a pair of binoculars he splashed ashore and hurried up a hill to its summit. There he had a clear view of a long river "straight" reaching twenty miles upstream.

He moved his glasses slowly upstream, praying for a glimpse of those two outlaw canoes. Carefully focusing, he scrutinized the river, the banks on either side with their little curves and hollows; and searched above the trees for a wisp of camp smoke. Nothing, nothing whatever, of two creeping black dots. The bandits were twenty miles ahead at least.

As he hurried back down to the launch, he began to realize that those two canoes had travelled more swiftly than he had thought possible. For the first time in his police experience, Alan found himself all at ease and uncertain of what he was running into. Though he could understand, on the assumption of Dave MacMillan's guilt, how the bandits knew just the right places to make in this dimly known country, still he was utterly unable to explain how six absolute strangers could get into this country unseen. Who they were, where they had come from, how they had got in here unknown to everybody the whole thing was unknown. He hardly knew what to expect of them next.

Splashing back upon the launch, he told his men tersely: "They're not in sight yet, and I could see for twenty miles. We've got to meet up with them before they reach the Forks. They're making tracks. Ped, you're light to drive by now. We'll take our chances."

Twice more that morning, between Pedneault's reckless dashes, he hurried ashore and futilely searched ahead. Something had gone wrong. The patrol should be within sight of them. Retaining their speed and the speed of the pursuing launch, he knew the police craft should have overtaken them about eighty miles above the MacMillan trading post. He had come a hundred and twenty, and to sight of them yet. They had either dodged aside, or had done something to give them a big edge over what he thought possible.

It was afterwards when the waters of the Alouka had given up their ghastly secret, that Joyce MacMillan learned by the accounts of several Yellowknife men and gained upon certain grim evidence, and placed together the story of how these band-

its were able to keep in the lead. But Alan knew nothing of that harrowing story now; he knew only that something had upset all his calculations.

Fifteen miles from the Alouka Forks he went ashore a last time and climbed a squat tree. He had a clear view to the Forks. The glasses picked up a sight that set his heart pounding madly against his ribs.

Far ahead, three short miles from the Forks of the Alouka, a pair of tiny black objects, like huge crawling along a silver ribbon.

He jumped out of the tree, leaped down the slope.

Spinning aboard, he flung all caution to the winds. . . . "Throw into it, Pedneault! We've got to beat them to the Forks. We'll close in on them in the launch. Get to! They'll hear us but they won't stop, won't fight, if they can make it there. Open her up! To hell with rocks and mud bars now!"

His last words were drowned in the engine's roar as Pedneault opened out the launch. With the wind striking his eyes and the spray lashing him, Alan clutched the painter to keep from being flung bodily overboard, and gave Pedneault what help he could.

The craft careened around the last bend, a scant mile from the great Y of the Alouka. A clear open stretch lay in front. Dashing the blinding spray from his eyes, Alan rose precariously to his feet, looked ahead; and his heart sank as the truth was borne in upon him.

Those canoes had beaten him to the Forks.

It was maddening, his defeat—doubly maddening for its closeness to a smashing triumph. He had come within five minutes of overwhelming them in the launch, and then, loomed, had missed by a mile that missed gigantic as two hundred. They had beaten him. They had heard the thundering boat, had flung their whole strength into the race; and now were whipping on eastward along one or other of the Alouka branches.

The launch would have to be abandoned at the Forks. He knew the police boat would be stranded or wrecked within half a mile if it attempted to go up either of those shallow streams. He could have no tale to paddle canoes and split his party.

Unheaten, he planned swiftly. The chances were ten to one that the bandits had darted up the left branch leading northeast into the Thal-Azan. He decided quickly: "I'll follow that left branch. I'll take Bill with me, a red-haired devil in a fight, he's our best shot, he'll be dependable in whatever comes. But the third man—Ped or Larry? Both splendid men, experienced veterans of many a patrol."

He made up his mind: "I'll send Ped up the right branch with Murgon and Whipple. Bill and Larry and I'll short up the left. We'll be the ones to do the business."

As the great Y of the Alouka loomed up, he turned and gestured to Macneil and Larry. Silently understanding, they crept back to the stern deck, unheeded the canoes and had them ready by the time Pedneault, slowing down the launch, steered it in between two little yellow islands at the Forks and stopped.

Alan ordered him: "Ped, take these two men and whip up the south branch. Larry and Bill and I'll cover the north. If you sight them, don't pitch into that pack. You'd be fighting six men single-handed. If they did happen to go that way, you drop back here to the Forks and wait for us. We'll be able to track them in that timber country. Let's pile up! They can't be over a mile and a half away."

Bill snarled: "I'll be blue-blazes, Alan! Let's stick together. Us splitting this up like this, it's the d—dest fool trick I ever heard of!"

# Get Rid of That SORE THROAT!

Any little soreness in the throat grows rapidly worse if neglected. Crush some tablets of Aspirin in some water, and gargle at once. This gives you instant relief, and reduces danger from infection. One good gargle and you can feel safe. If all soreness is not gone promptly, repeat. There's usually a cold with the sore throat, so take two tablets to throw off your cold, headache, stiffness or other cold symptoms. Aspirin relieves neuralgia, neuritis, too. Use it freely; it does not hurt the heart.

## ASPIRIN

TRADE-MARK REG. IN CANADA

"Shut-up!" Alan snapped. "Guns, orders, not mine. Every d—d thing you say or do will be tattled to him." He tossed the launch anchor into the mud. "I said pile out. Let's be moving." He stepped down into a canoe, stood rifle between his knees, caught up a paddle.

Cursing beneath their breath, Bill and Larry clambered in with him. The two canoes separated. (To Be Continued.)

### Little Helps For This Week

"Bear ye one another's burdens, and so fulfill the law of Christ." — Galatians 6:2.

There are those who take what they can get. Then peer around for more; Who save and stint, and dwell content. Behind a miser's door.

There are those who give with generous hand, And seek to give still more; The sick and sad, the poor and low, Find welcome at their door. — Grenville Kleiser.

However perplexed you may at any now become about some question of truth, one refuge and resource is always at hand; you can do something for someone besides yourself. When your own burden is heaviest you can always lighten a little some other burden. Let this thought then stay with you: there may be times when you cannot find help, but there is no time when you cannot give help. — George S. Merriam.

### Hobby Proves Valuable

Ottawa Alman Makes Living Out Of Talent For Whittling

Things looked bad a few months ago for A. B. Abbott of 22 Bower Street, Ottawa, but he has whittled his way out of the depression. Discharged from the Royal Canadian Air Force when the government cut staffs, he was left without resources and with an expensive house he had built himself.

He had a hobby, whittling. Ever since he was a boy in Picton, N.S., he had whittled little wooden statuettes just for the fun of it. He started whittling in earnest, making caricatures of human types on Canada's Atlantic Coast, images of Indians, getting the costumes right by studying specimens in the National Museum of Canada at Ottawa, and model totem poles.

The things sold well in Canada and in the United States. Abbott wonders if he couldn't find one or two other whittlers who would join him in forming a small whittling industry. He can't fill all his orders himself, he said.

It has been learned unofficially that the Japanese government has communicated to the Soviet Government a formal refusal to sign a non-aggression pact with Soviet Russia proposed by this government a year ago.

# No more dusting for me!

at least not with old-fashioned dust cloths. I've found a better way.

Thousands of Canadian women know that her "better way" is the Wonder Paper. Made from clean rags and soft paper pulp scientifically treated with high-grade furniture polish, it dusts—as it cleans—as it polishes.

Wonder Paper is changing the old-established order of housecleaning. One neat package of it appeals more to women than yards of old rags that spread dust and constantly need washing to be sanitary.

You get twenty-five sheets of Wonder Paper for a quarter. Simply crumple a sheet into a soft wad, use over the furniture, woodwork, and the floors. The results are a delight. In half the time and with half the effort, you get a necessary task done far more satisfactorily. And when you're through, throw away the piece of Wonder Paper. No shaking out, or washing, of dusters. Certainly you ought to try Wonder Paper.

### Special Offer

WONDER PAPER is made by the makers of the famous PARASOL, the Heavy Waxed Paper in the Green Box. Most grocery, hardware and department stores have Appleford Wonder Paper in stock. If yours hasn't, just send this coupon and we'll give you a booklet entitled "Leftovers", containing one hundred recipes, as a bonus.

Appleford Paper Products, Ltd., Hamilton, Ontario.  
Enclosed find 25¢ for which please send me one package of Wonder Paper and your 10¢ recipe for "Leftovers".

## The Friend-maker--

ADVERTISING plays no favorites— it makes friends of you and for you. It constantly offers kindly assistance by introducing worthy merchandise to you. It tells you of the best foods; of the newest time and labor-saving devices; of opportunities to save money by making certain purchases at certain stores on specified days. It even points out the way that enables you to keep physically fit and mentally alert.

ADVERTISING is, unconsciously to you perhaps, your steadfast friend. It has established an era of good feeling between you, the stores, the manufacturers and their products. Advertising is honest and sincere. You can believe it and believe in the products it calls to your attention. It is indeed A REAL FRIEND-MAKER.

Read the advertisements every week,  
they help to make homes happier and  
more contented

### Mountain View Notes

Mrs. H. Roberts recently entertained a few friends at a card party.

A Community Hall meeting is to be held Monday evening. A whist drive will be staged and refreshments served.

Mrs. Ed. Barnes entertained a few friends at bridge Saturday. All had a jolly time and the hostess served dishes of her delicious ice cream.

The local U. F. A. met at Community Hall on Monday evening to hear Mr. Claypool, M. L. A. He made reference to several matters to be brought up at the coming session of parliament, and dealt with the Debt Adjustment Act and tax arrears. At the close refreshments were served by Mesdames Blain, Woods and Worrall.

The regular monthly meeting of Mountain View W. I. took place at the home of Mrs. Ed. Blain. The dance that was held January 15th had been very successful and several debts of the organization were thus cleared up. All the new babies were paid \$1.00, and this meant no small sum this year. The next meeting will be held February 16th at the home of Mrs. W. Atkinson.

### Melvin Notes

Mr. and Mrs. Walter Irwin spent Sunday with Mr. and Mrs. Roscoe Irwin.

Mr. and Mrs. Jewel and Mr. Chas. Foss visited with Mr. and Mrs. G. Carlson on Sunday.

Dorothy and Ross Young spent Sunday evening at August Krebs' Eddie is improving nicely.

Rugby Women's Institute will meet at the home of Mrs. Claythill, Thursday afternoon February 9th.

We are pleased to hear that Mr. Adam Korschub is improving and is out of the Hospital and home again.

We are sorry to learn that Mrs. Farrant is laid up with a sprained ankle. We hope she will soon be around again.

Sad news came to the district on Tuesday morning when it was learned that little Gordon Johnston, son of Mr. and Mrs. Glen Johnston, had passed away in Didsbury Hospital. Much sympathy is extended to Mr. and Mrs. Johnston and the other relatives.

Too late for last week.

Miss Gladys and Mr. L. Carlson spent Monday at Calgary.

Miss Marian Johnston is spending the week with Mr. and Mrs. Ray Lantz, of Didsbury.

Mr. and Mrs. Emil Krebs and children spent Sunday at the home of Mr. and Mrs. C. E. Young.

The Go-Getters are holding a dance at the school February 10th. Ladies please bring cake, 25c each.

Mr. and Mrs. Ted Cuffling spent Tuesday evening at Mr. and Mrs. August Krebs.

Lester Krebs spent the week-end with his grandparents, Mr. and Mrs. Cowitz.

Mr. Ernie Fisher spent Sunday with Mr. Eddie Krebs and we are pleased to report that Eddie is resting very comfortably.

At the whist drive Tuesday night Sara Landeen and Mr. L. Carlson were winners, congratulations going to Edna Bishop and Emil Krebs.

In the passing away of Mrs. Roy Warren we lose one of the pioneers of the district. Much sympathy is extended to Mr. Warren and relatives.

Mr. and Mrs. Schultz spent Sunday at the Johnston home, Miss Ruth Johnston returning with them, while Harold Schultz spent the week with Jim and Douglas Johnston.

The Go-Getters' annual meeting was held Saturday night. All the officers except vice-president were re-elected, and Mrs. Geo. Young will act in that office for the ensuing year. The club meets every Saturday night and everyone is welcome.

"BUY IN DIDSBURY"

### LOCAL & GENERAL

The service of Holy Communion will be observed at the Church of St. Cyprian on Sunday morning at 11 o'clock, Rev. A. D. Currie officiating.

The annual Carlers' Service will be held Sunday, February 5th at 7:30 p.m. in Knox United Church. Special music. Sermon subject: "Get the Broom." Everyone welcome.

The social evening given by the St. Cyprian's W. A. at the home of Mr. E. O. Watt on Friday was very largely attended and greatly enjoyed. Prizewinners at cards were Mr. Geo. Hardy 1st, Mr. Chas. Pratt 2nd and Miss Kathleen Pitt 1st, and Mrs. Ray Pearson 2nd. The next social evening will be held at the home of Mr. and Mrs. W. S. Durrer on February 10th.

### Obituary.

Gordon Douglas, the infant son of Mr. and Mrs. Glen Johnston, passed away at the age of 3 years and 10 months, at the Didsbury Hospital on Tuesday morning January 31st, 1933, after a short illness.

The funeral will be held this (Thursday) afternoon at 2 o'clock at the Knox United Church.

### RUGBY NOTES

Members of the Cheer Up Club spent a very jolly evening at their meeting Wednesday night last. A short business session was followed by community singing; humorous readings by Mr. W. F. Brown and Mrs. Hosegood; musical selections by members of the "Frog Holler Orchestra"; a song by Mr. Rowell; a contest, and violin selections by Albert Krebs and Arnold Russell. These young violinists are to be specially commended for their share in the program. It is hoped that by now Mr. Brown has successfully counted his houses and bottles. Games were played for a short time and the serving of lunch concluded an excellent evening's amusement. The "Cheer-Ups" are holding a dance February 24th.

Anyone knowing the whereabouts of the proprietor of the Gas Barrel Store Co., kindly notify the secretary of the Cheer Up Club.

### Burnside Notes.

Miss Mildred Cipperey spent Friday with Miss Winnie Spragg.

The annual meeting of the Lone Pine Hall Board will be held Friday evening February 10th.

Messrs. Albert and Harold Davidson have returned from a visit to Benalto.

The Hall Board is putting on a dance at Lone Pine Hall this Friday evening, February 3rd. Bellamy's Orchestra furnish the music.

Mrs. Miller Hewson, of Alingham, is in the Calgary General Hospital, recuperating from an operation for appendicitis.

### Curling Notes.

Tommy Johnson's rink got the best of the MacDonald Brier rink in the first game of the new schedule.

Did you hear the alibi?

Brusso laid 22 to 5 on his fellow-sectary, McNaughton the other night. They say that Brusso treated his rink to an oyster supper. (?)

Wednesday afternoon two ladies' rinks went to Carstairs and broke even with the ladies of that town. Mrs. Geiger beat Mrs. Hall 8-7, and Miss Reiber lost to Mrs. Miller 9-10.

### WEEKLY JOKE

"When does a man become a seasmith?"  
"When he heins and haws?"  
"No."  
"When he threads his way?"  
"No."  
"When he rips and tears?"  
"No."  
"Give it up."  
"Never, if he can help it."

'Service Right Now!'

## High School Hockey.

Wednesday last Didsbury High met Bowden on local ice in a Rosebud inter-school league fixture.

The first period was rather slow on account of rough ice, however, the Bowden boys were going well and managed to put the disc past Holub twice. McLeod scored the first from Cunningham and Milburn duplicated a few minutes later and the period ended 2-0 for Bowden. The second frame saw Clark score for Didsbury, but Bowden retaliated with a neat goal by McLeod from Cunningham. The final canto opened fast with Didsbury forcing the play. Playing five men up the home team succeeded in scoring when D. Jenkins netted. The bell ended the game with Didsbury working hard to make up their one goal deficit. Didsbury: Holub, D. Jenkins, I. Jenkins, Berscht, Evans, Brusso, White, Geiger, Clark.

### WEEKLY SERMONETTE

"Because this old world is hungry for love we need to cultivate the simple art of being kind. We may get along comfortably without any further wisdom, guile or sophistication; but, ah, sorely do we need the gentle effluence of love as we meet one another by the way."
